## Support An Ecojustice & Recycling Visit!

As we reflect deeply on our stewardship of **Creation** and the principles of **Ecojustice**, we're excited to invite you to support a significant community event focused on one of the most immediate ways we can care for our planet: **recycling**.

Revd Martin Allen, in discussion with St Laurence and St Leonard's, is organising a **FREE** group visit to **Envirosort**, a materials recycling facility near Junction 7 of the M5.

### Why is this important?

- **See the Impact:** This 90-minute visit will give us a firsthand look at what truly happens to our waste. It's an opportunity to move beyond simply separating our rubbish and gain a deeper, more practical understanding of the entire recycling process.
- **Live Our Values:** Increasing our awareness of "rubbish recycling" directly ties into our focus on Creation and Ecojustice in upcoming services. Understanding the system is the first step toward advocating for a healthier environment and fairer practices for everyone.

- **Inspire Change:** We hope this experience will not only educate but also inspire conversations and meaningful changes in our own homes and across our Mission Area.

## How You Can Help

Martin is currently gathering interest for a visit on a **Tuesday, Wednesday, or Thursday afternoon in November.**

- **Sign Up for the FREE Visit:** If you are personally interested in attending, please **sign up** as soon as possible! We are coordinating transport (trying to organize car rides) and need a confirmed number of participants.
- **Spread the Word:** Share the enclosed poster and information within your church communities, with friends, and on social media!
- **Offer Support:** If you'd be willing to help coordinate a carpool or have any questions, please reach out to Martin directly.

This is a vital opportunity for the Redditch Mission Area to put our faith into action. Let's step up and become better stewards of this wonderful gift of Creation!

**To sign up or for more information, please contact Revd Martin Allen:**

## Eco Justise and Community Recycling

As part of our thinking about Creation and Eco justice would you like to know what happens to these?

A company called Envirosort has a factory near Junction 7 of the M5, which hosts groups interested in recycling and the environment. A visit to them lasts about 90 minutes.

I'm in discussions with them about a group from St Laurence and St Leonard's visiting to increase our awareness of rubbish recycling. This fits in with our focus on Creation and Ecojustice in upcoming services.

If you are interested in a *FREE* visit to see what they do (we'll try and share car rides), then please sign up below or email me. I'm thinking of a Tuesday/Wednesday/Thursday afternoon in November.

Thanks  
Revd Martin
